Standard of Confidentiality and Limitation

This document is proprietary to BaxEnergy GmbH and contains reserved information and trade secrets: it is supplied in confidence and it is intended solely for the use of the individual or entity to whom it is addressed. It should not be disclosed, duplicated, translated or otherwise revealed in whole or in part without the prior written consent of BaxEnergy GmbH. All rights are reserved.

The recipient of this document should take all necessary precautions to prevent its contents be disclosed to third parties.

While every care has been taken in preparing this document, the content is subject to formal contract negotiations. All conditions and warranties whether express or implied by statute, law or otherwise, are hereby excluded. This document shall not form part of any contract.

This document was prepared on the instructions and information provided to BaxEnergy GmbH at the time of preparation: no responsibility is accepted for any inaccuracy or error or any action taken or not taken in reliance on this document.

Any comments on, or opinions stated in this document regarding the functional and technical capabilities of any software or other products proposed or referred to in this document, whether or not expressed as being those of the end user, are based on the information provided by the product vendors to BaxEnergy GmbH or provided by the end user. While BaxEnergy GmbH does not have reason to believe that this information is in any way inaccurate or incomplete, responsibility for its accuracy and completeness does not rest with BaxEnergy GmbH.

Where we mention specific clients by name, we would request that the client not be contacted without our prior written approval to do so.

These limitations are not in any way intended to restrict continuing business discussions regarding the subject matter of the document.

NOTE: This document applies to all companies of the BaxEnergy group including, but not limited to: BaxEnergy GmbH; BaxEnergy Italia s.r.l.;

2 Specifications

It's request to the candidate to provide a fully functional simple text editor application written in Angular 5.x that will contemplate the following specifications:

1. As a user, I need, using the button "print", to display the "document", title and body, in the preview pane.
2. As a user, I need to provide a title to be able to print
3. As a user, I need to provide a body text to be able to print
4. As a developer, I'll keep the print button disabled until the user fulfilled point 3 and 4
5. As a user I need a button to reset both title and body text
6. As a developer, I'll provide the user a confirmation dialog for the user before resetting title and body text values if not empty
7. (optional) As a user, I need to be able to use "special tag" in the body text to modify the aspect of the text in the preview pane:
 - [b]Any word or sentence here[/b] will be printed in the preview pane in **bold**
 - [i]Any word or sentence here[/i] will be printed in the preview pane in *italic*

The application will resemble the attached mockup design.
